A tapestry creates a warm atmosphere, inspiring peace and prayer, appropriate for any worship space, office, room, or assembly hall. Made with an exquisite combination of colorful applique with embroidery in gold and wool threads, they are lined and interlined, with open hem at top and bottom for hanging rods. We offer several standard banners and tapestries and all can be supplied as altar covers or lectern covers.

Slabbinck's workshop in Belgium, specializes in the design and manufacture of special tapestries and banners. Whether using standard fabrics, velvet or nylon, we can help you realize your special project.

We offer hand embroidery, machine embroidery or our combination of application with embroidery technique.

Heraldic shields, patron saints, pictures of your church, liturgical or evangelical symbols of your choice can all be made into high quality works of art. We have an extensive library of patron saints and are happy to work with you to accomplish your dream. Because we use Slabbinck's high tech facility in combination with the experienced and talented artisans that hand craft your custom project, we have the ability and flexibility to provide you with the highest quality finished custom products.

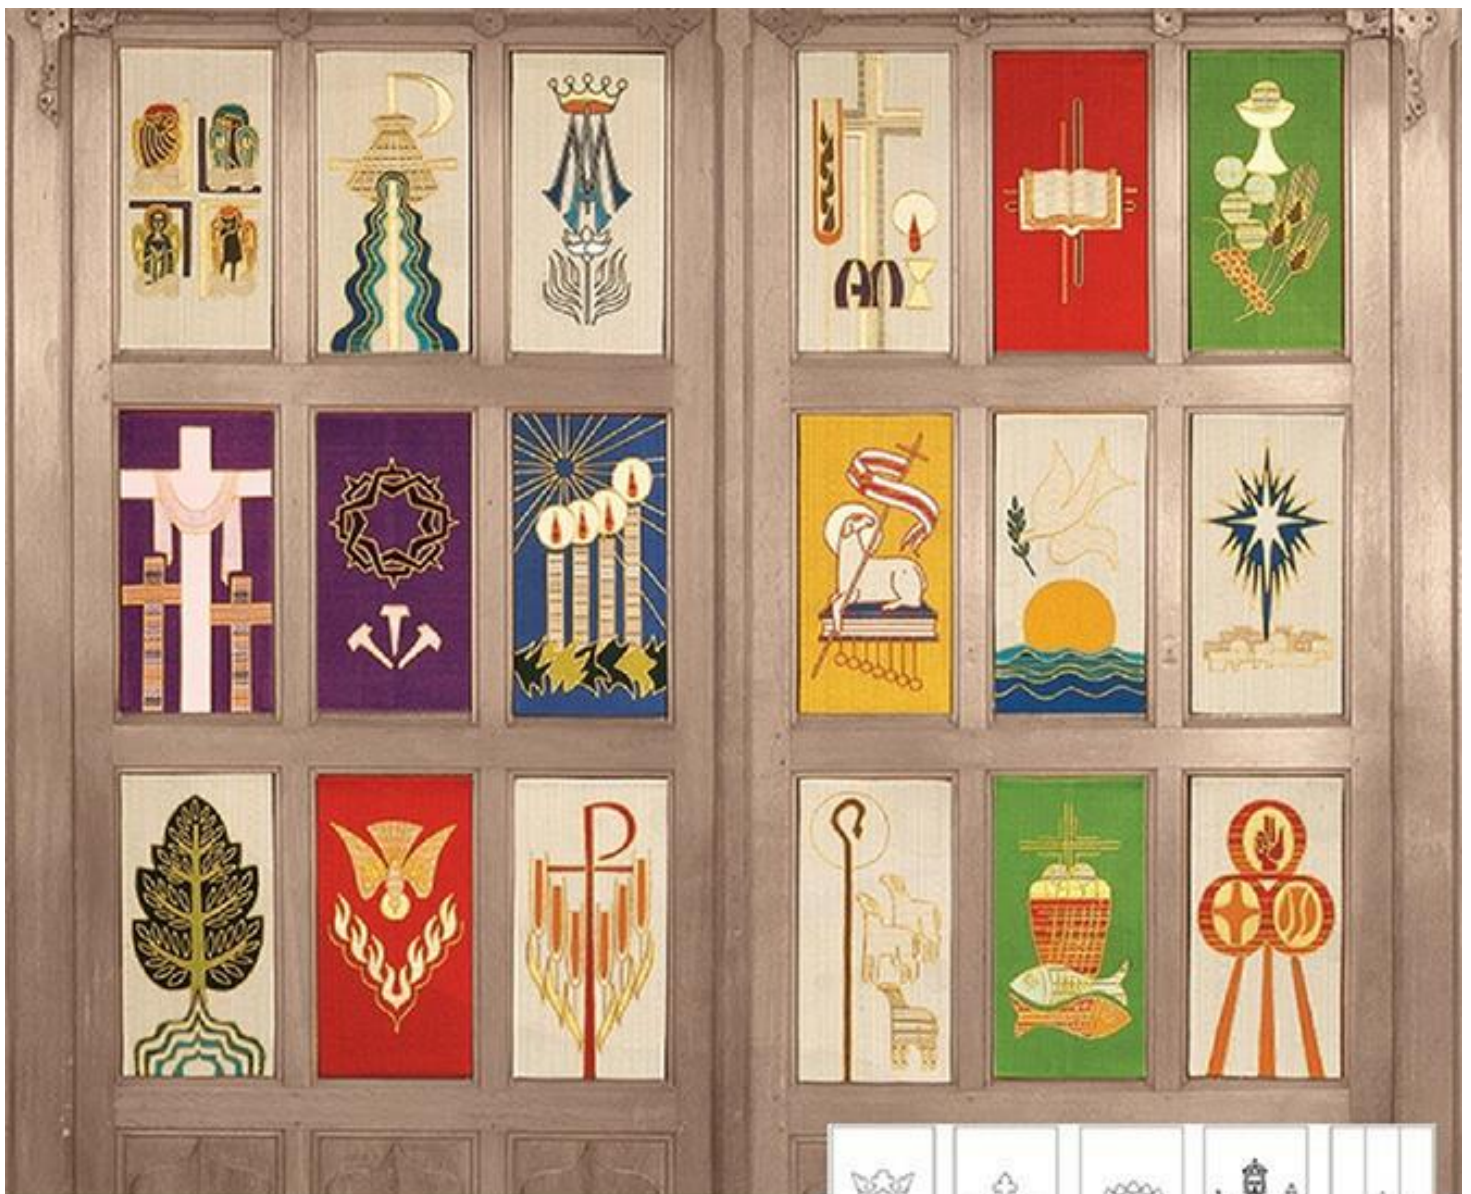

Banners and tapestries can be finished with loops for hanging or an open hem to insert a rod.

Different techniques can be used to suit your style and budget.
